

## HIGH PERFORMANCE OPTRONICS & OPTO-MECHANICS

### SCROME OCTO-1 Tactical rifle scope

#### OVERVIEW

The SCROME OCTO-1 is a compact, heavy-duty, high performance rifle scope designed for the missions and environments of modern snipers and designated marksmen.

#### FEATURES AND BENEFITS

- Engineered and constructed with SCROME's renowned uncompromising ruggedness, it features an extremely well optimised optical formula.
- Unlike most low power variable scopes on the market, it is firstly designed as a precision tool that also enables close quarter engagements.
- Its ergonomic layout is meant to make each function easily accessible for both right and left-handed shooters, and work around most semi-auto precision rifles without interferences.
- Its first focal plane reticule offers an exclusive, extremely versatile design, providing a sighting tool adapted to each zoom factor and situation a sharpshooter might face.

#### ACCESSORIES AND OPTIONS

The OCTO-1 is supplied with a foam padded transport case. The following options are available:

- Instruction Manual
- Flip-up front and back lens covers
- Standard or fast-off STANAG 4694 adaptor
- Honeycomb and anti-laser filters
- Eye cup for use of add-on modules

Different colour are available, please contact us.

#### APPLICATIONS

Combat sharpshooting from 0 to 800m.

#### TECHNICAL CHARACTERISTICS

- Magnification and objective: 1 - 9 x 24 mm
- Field of view: 21.5° - 2.3° (38m - 4m at 100m)
- Ocular lens diameter: 38 mm
- Exit pupil: 10 – 2,6 mm
- Eye relief: 85 mm
- Reticule: First Focal Plane, polyvalent (MilDot, MilDash or other options)
- Parallax: Fix, 100 m
- Light transmission: > 90 %
- Correction per click: 0.1 mrad (1 cm at 100 m)
- Vertical/Horizontal range: -0.5 to +14 mrad / -7 to +7 mrad, mechanical stops
- Tube/ocular external diameters: 34/48 mm
- Weight: 850 g
- Energy: 1 AA 1.5V battery (compatible with alkaline, lithium and rechargeable)
- Interface: Integrated STANAG 2324 / ringless
